A scientific study - Poop by gender - nationality - and profession...

Ok boys and girls... New mission. I want to collect all of the shitty toilet shots from your stool.

We need to collect your people droppings in digital format.

I want to know A) The country you are from B) Your profession, and C) Any special diet you are on and / or if you have a specific diet / intake preference.

Please send all photos to foxisevil@gmail.com and share your shit! Every poop counts. Please "pass on" your photos and we will give you credit.

With nearly 50,000 visitors per month, I think this mostly scientific study will be a "gas" to the medical community!

POOP ON!!!!

TK (Admin)

Congratulation to our first poo-poster! Amanda from NSW, Australia. She mostly eats grains and nuts and spends a lot of her time base jumping!!! Rock on, Amanda, thank you!

12-31-09 2:11 AM CST - Jim, from New Jersey, is a strong, proud, 30 year old pipe layer from New Jersey that enjoys vendor hot dogs and Wendy's... Thanks Jim for the quick response!
