Terry Steindel, Terry Steindel, are you serious? Get your ass some Rosetta Stone!

Terry Steindel, are you serious? I don't mean to pick on this guy but check out his latest website. He has the language skills of a 4 year old child immigrant. Dude, if you know you are completely terrible with words and the English language, call ME! I will help you with your proof reading. Oh my God, what a complete idiot. Terry.... Who is advising you? Your sentences are similar to a dog smearing it's ass across the carpet and then licking it up. "YOU, sir... Are un-American!" Click here to look at this idiot's latest website. I've highlighted some mistakes I've found. Can you find more?
